ASSIGNMENT 4
(due **Wednesday, Oct. 5**, 2016)

ORAL PRESENTATION

The only assignment is to prepare your “quarterly” oral presentations. These are to be slightly longer than those on September 28; these are 10+5.

On September 28, two of the talks were well short of the allotted 8 minutes. On October 5 your talks must be between 8 and 10 minutes.

On September 28 some of the talks were not at the appropriate level, a level allowing all students to understand. On October 5 you will be judged particularly on whether your talk is at the right level.

The undergraduates should choose one of their group to make an updated presentation of their project. The remaining member – the student who has not yet presented – will give a talk on October 12.
